PROFESSIONAL SUMMARY

black

Data Analyst with an M.Sc. in Data Science and hands-on experience in Power BI, SQL, Python, Excel, Power Query, DAX, and ETL workflows, building interactive KPI dashboards and data pipelines for executive decision-making.

PROFESSIONAL EXPERIENCE

black

MIS Executive Intern

Feb 2026 – Jun 2026

Ajay Engineering Tools

Pune, India

- Automated weekly operational reporting workflows using Google Sheets and Google Apps Script, streamlining recurring data collection.
- Developed interactive Looker Studio dashboards tracking operational KPIs and stock levels to improve inventory visibility.
- Automated data cleaning and validation processes, improving overall reporting data accuracy for recurring operations.

Data Analyst Intern

Jan 2025 – Jun 2025

Internship Studio

Remote

- Reduced executive reporting time by 25% by developing interactive Power BI KPI dashboards and structured retail ETL workflows.
- Modeled relational transactional datasets using Power Query and DAX measures to analyze sales trends and key performance metrics.
- Collaborated with non-technical stakeholders to define business requirements and build actionable BI dashboard solutions.
- Built automated ETL scripts and scalable data pipelines for retail transaction datasets to boost workflow efficiency.

Data Research Analyst

Dec 2023 – Mar 2024

Pratiti Technologies

Pune, India

- Delivered 120+ market research reports by cleaning and analyzing datasets using SQL, Python, and Advanced Excel.
- Conducted exploratory data analysis to identify key industry performance indicators and support strategic decision-making.
- Documented research workflows and built data storytelling presentations to communicate insights to leadership.

Data Analyst / Purchasing Analyst

Jan 2023 – Jun 2023

S4S Tech Services

Aurangabad, India

- Optimized complex SQL queries for data extraction, joins, and analysis to improve recurring business reporting workflows.
- Developed feature-engineering and statistical-modeling workflows for operational datasets to enhance data accuracy.

TECHNICAL SKILLS

black

Data Analysis & BI: Power BI, DAX, Power Query, SQL, Python (Pandas, NumPy), Looker Studio, Tableau, Advanced Excel, EDA

Data Engineering & Databases: ETL Pipelines, Data Modeling, Relational Databases, PySpark, MySQL, PostgreSQL, SQLite

Advanced Analytics & AI/ML: Statistical Modeling, Machine Learning, Scikit-Learn, NLP, Transformers, LLM Fine-Tuning, AWS SageMaker

SELECTED PROJECTS

black

Sentiment Analysis Customer Feedback BI Pipeline

Dec 2024 – May 2025

- Built an end-to-end NLP analytics pipeline to categorize unstructured customer reviews into dynamic Power BI dashboards.
- Engineered custom DAX measures to enable detailed sentiment analysis and visual feedback tracking.

HireHunt AI Job Referral Platform – ATS Scoring Engine

Sep 2025 – May 2026

- Architected a job referral analytics platform using Python, Flask, and SQLite with candidate resume scoring modules.
- Designed relational database structures and application-level pipelines for scalable metric reporting.

EDUCATION

black

Master of Science in Data Science (CGPA: 9.09)	2023 – 2025
Dr. D. Y. Patil ACS College, Pune, India	
Bachelor of Science in Data Science (CGPA: 7.81)	2020 – 2023
MGM University, Aurangabad, India	

CERTIFICATIONS

black

- Career Essentials in Data Analysis – Microsoft / LinkedIn
- Data Analysis with Python – IBM
